**WINEMAKER:**

Johan Jordaan

**ORIGIN:**

Stellenbosch

**TERROIR / SOIL:**

Decomposed granite with clay subsoil situated up to 20 kilometers from the cold Atlantic Ocean

**VINEYARD AND CLIMATE CONDITIONS:**

2019 was the driest year for the last 5 years with very low soil water reserves. This resulted in a lower-than-average yield. Careful foliage management was done to protect the fruit from drying out, with a good balance between exposure to the sun and some over shadowing from the leaves. The 15 – 18-year-old vines are planted to a VSP system with supplementary drip irrigation.

**WINEMAKING:**

Grapes were hand-harvested, pre-cooled, de-stemmed and individually sorted to remove unwanted berries. Fermentation took place in stainless-steel tanks for up to 21 days. Malolactic fermentation and maturation took place in 300L French oak barrels for 18 months (50% first fill; the balance second fill). Before blending, the wines were crafted individually to address the unique needs of each varietal so that each could reach its highest potential. Selective tasting from the barrels determined the composition of the blend. Expert blending has ensured harmony between the five varietals.
